## SWIMMING LESSONS

*First of all we get dressed. Then we wait for the other children. Then we hop into the pool safely. Next we line up by the wall and wait for Ms Bowler to give us instructions. Next we blow bubbles in the water. Then we walk across the pool and back to the end until Ms Bowler says, "kick, kick". We put our hands by our ears and blow bubbles. Then we get the flutter board and put our hands on the end of the boards and put our thumbs down the bottom of the board and kick our legs. It was remarkable going there.*
